

You may have come across or will soon find out that the DVLA seem to be changing their stance regarding the re-registering of panel vans to campervans (motorcaravan on V5).

It seems that the DVLA are now registering these vehicles as a 'Panel Van with Windows' as opposed to a MotorCaravan. The good news is as far as Safeguard are concerned there is no requirement for the vehicle to be registered as a Motorcaravan by the DVLA (unless a DIY conversion). Our level of cover and acceptance criteria remain unchanged, so please continue to refer your customers to Safeguard Insurance.

As ever thank you for continuing to support Safeguard.

Kind Regards,

John
